## ABOUT THE FESTIVAL

The Department of Media Studies is going to organise a Media Festival on September 05, 2022. This is after a long time that the department shall be organising a Media Festival, for the situation didn't allow us to conduct any such activity since the last festival held in 2018.

The objective of the Media Festival 2022 is to present a platform for the students and professionals to showcase their talent and learn from each other. It shall open a new way of sharing mutual experience, skills and talent. This shall also be an opportunity for the media students of this college to showcase the work they have done in various field projects throughout the year.

Through this Fest, we challenge the pre-conditioned mind-set of the students, and exhort them to take up newer challenges and win. The intercollegiate media fest urges students to aim for adaptability, creativity and creative evolution through lateral thinking.

The festival will comprise of three main events:

- **Film Competition**
- **Photography Competition**
- **Theatre**
