

Institutional Best Practices

Community and Outreach activities.

The college is having three NSS Units, two for Boys and one female wing each headed by Programme officer. The POs have identified villages and Govt. schools which needed attention like Awareness about health and hygiene, education and social evils. The NSS volunteers are being deputed under supervision of concerned POs to these villages and schools. They launch door to door awareness programmes and sensitize people, youth about these issues. Realizing the need that these catchment area schools need attention in augmentation of their labs and up gradation of class rooms, the Programme officers have devised a unique plan of donating some equipment like microscopes, bio visual charts, computers , furniture items like wooden benches, lockers. For that college constituted committee who would identify items to be donated and ensure that these items are sent to these institutions following necessary procedure.

ICT based teaching learning activity.

To enhance the comprehension level of students and to update them with modern Teaching gadgets the college has provided most of the faculty members with teaching aids like laptops, portable PA system, laser pointers, visualizers and allied ICT gadgets for effective and optimum use in class rooms .The class rooms have been fitted with TV monitors, LCD projectors, Inverters. The three tier teaching activity concept like chalk and talk, PPT and video animation is being encouraged.
